

# 1 hour will be given to a charity of your choice when you purchase a report.

Client

- Finish Data Adding
- Choose Charity from Drop Down List
- Press Submit

School Leaver/Graduate/Job Seeker

- Are you a School Leaver/Graduate or Job Seeker?
- Would you like help landing your dream Environmental job?
- If you are a School Leaver/Graduate or Job Seeker and would like to be included in the placement service we offer then please could you submit your CV and covering letter/note on what draws you into the environmental industry. As a part of this 'note' please could you say what the best environmental film you have watched and what it was that made you like it.

Charity

- Would you like to be on our list?
- Are you a registered Charity?
- Do you class yourself as an environmental charity?
- Are you based in the UK ? (For the time being)\*See below.
- Please could you write to [charity@compareyourfootprint.com](mailto:charity@compareyourfootprint.com) and explain why you are classed as an "environmental charity", what you would have someone complete for you. This is a way that are able to try and place the right person in your charity.

- What happens when someone has purchased from CompareYourFootprint?
  - We keep a track of the amount of time that has been donated to each charity. Depending on what charity wants out of the voluntary work; we will place the right person with the right charity. (The charity obviously has a choice as well!)
  - If you would like to know what has been completed at the charity of your choice then please sign up to the newsletter or subscribe to the relevant blog article on our website. All work completed will be written up.
- Why are we doing this?
  - There are loads of registered charities that would love to have people help them on their quest to make our world a better place.
  - There are many people looking for work but 'just don't have experience'. We are looking at helping change this.
- How does it work financially?
  - We will pay the 'charity worker' - £10p/h. We estimate it will be a cost of £12 per report for this project.

**Around the world** – Our intention is to set this up in every country you are in around the world. Imagine 1000s of environmental charities and job seekers being helped ALL over the world!
